IN making out the following schedule of prices we have endeavored to be as fair as is consistent with the high cost of materials and production of specimen stock.

All prices herein named are for stock at the Nursery or delivered at the railroad station. Boxing and packing will be charged at actual cost. Five of a variety will be sold at the ten rate and fifty of a variety at the hundred rate.

Specimen Trees and Shrubs. Our prices cover the average run of our trees and shrubs, and **when a personal selection** is made of any that have **unusual merit, a special price** is charged.

Delivery. Many times we can deliver stock to destination by motor truck at a cost of practically no more than the combined cost of packing and freight. This means that the stock will reach destination on same day and in the best of order.

Warranty. We exercise the greatest care to have all our stock true to name and will refund the original purchase price, on proper proof of all that proves untrue. We give no further warranty, express or implied, and in case of error on our part it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price paid us for the stock.

Our perennials are in bloom from early spring until late fall.

HERBACEOUS PLANTS

We do not attempt to carry a long line of perennials, but our aim has been to grow the BEST, both in variety and in the size of the plants. In many cases we can furnish strong clumps which will produce an immediate effect and give color to the perennial border throughout the season.

Sometimes certain varieties are superior to the type and we have discarded those which have not distinct coloring and free blooming habits.

Some varieties are very scarce, as the foreign supply has been cut off, and these varieties we are able to furnish in small quantities only, for this season.

We have, many times, plants in our gardens which are not listed, and would be glad to advise you by special correspondence if certain articles are desired.

Our Peonies, Phlox, and Iris are listed in a separate catalog, which will be sent on application.
